Dear Planning Officer,

RE: BE/112/25/OUT- Land at Heath Place, Bersted PO22 9SL

Thank you for your re-consultation on the above site, received on 07 November 2025. We have reviewed the application as submitted and wish to make the following comments.

This is an Outline application with some matters reserved (except access, layout and scale) for 3 No class E light industrial units and associated landscaping. This application is in CIL Zone 4 (Zero Rated) as other development.

We note the addition of some of the additional detail however, we are **still unable to recommend approval** of this planning application due to the absence of an acceptable Drainage Strategy. We note the testing is sufficient to rule out infiltration however concerns remain with respect to discharge to watercourse without prior approval or permissions from other RMAs or statutory undertaker.

We will consider reviewing our position if the following issue is adequately addressed:

1. EA SW confirm viability of discharge and location
2. A brief of the application of SuDs Standards (July 2025) alignment and any justification with supporting evidence highlighted as required.

Yours sincerely

Mat Jackson
Flood Risk Management Team

Subject: LLFA Consultation Response to BE/112/25/OUT

CAUTION: This email originated from outside of the organisation. You should take extra care when clicking links or opening attachments - if you are unsure the content is safe contact the IT Helpdesk before clicking or opening.

Simon,

Following a recent IT issue with a batch of application responses I have noted that the attached may not have made it to you. Please can this be added to the Planning Portal.

Many thanks,

Mat
