Hi Simon,

As the applicant says they are only providing them as they have the space so I don't see how having them or not having them will make a difference they just won't get used.

All I was pointing out was that the number they should have is I'd be more worried if it was the other way round and they don't have enough, I think I say in my comments the additional number will at the very least ensure no overspill parking goes into the other parts of the industrial estate and will keep everything contained onsite.

Kind regards
Alison

****EXTERNAL****

Dear Alison,

Ref your comments about parking on this application, I raised this with the applicant, and they ask:

Simon

Thanks for this

Unusual to get comments in regards to too much parking!!

There is no specific reason we have shown this much parking, simply that we had the space for it.

If you would prefer the parking to be reduced to 93 spaces then we are happy to do so.

Please advise.

Can you let me know if you would prefer a reduction in spaces?

Kind Regards

Simon
