Dear Ben,

Thanks. We will amend our files accordingly and then re-consult with the Ecologist.

Please also note the attached Highways comments. Can you respond on their question about parking.

Kind Regards

Simon

Simon

We have winter groundwater monitoring already completed and our drainage consultant is working up a detailed scheme to address the issues raised by the LLFA, we will send over once ready.

In the meantime we have now had the River condition assessment completed along with the water vole surveys and the BNG calculations prepared. I am attaching these. You will note that there is a deficit of 0.07 watercourse units which we will need to purchase credits for. Subject to your positive recommendation we would look to secure these from a registered provider but you will appreciate that given the cost we would like to know that the principle of development is acceptable before we commit to this.

If there is anything further that you require please let me know

Many thanks

Kind Regards

Ben Kirk

Dear Ben,

We have received an objection from the Lead Local Flood Authority (LLFA). Please see attached. I have checked and we do need the infiltration/ground water testing data at this point. Otherwise, this will likely result in a refusal reason. You may also wish to note the Council's Surface Water checklist for Outline apps, linked from this page - <https://www.arun.gov.uk/surfacewater/>

Kind Regards

Simon
