Subject: RE: R-RMC External Structure - Additional Information (BE/118/21/PL)

Dear Michael,

Having reviewed the document entitled 'Construction Health Environment management Plan (CHEMP); Project number G1089' (dated no date) [produced by Glencar Construction], I find the report to be satisfactory and in accordance with current relevant guidance. I therefore recommend that any future permission granted is in accordance with the Glencar CHEMP.

Sincerely, Craig

Good afternoon Michael,

I hope you are having a good week.

We are pleased to submit the requested CMP (attached). We trust this document provides all the information required and can enable a decision to be issued shortly with no pre-commencement conditions.

As you are aware R-RMC are eager to start on site as soon as possible so your support in issuing a decision for this application as soon as possible, ideally ahead of the 5th November, would be very much appreciated.

Please do not hesitate to contact myself or Charlie if you have any questions.

Many thanks
