Subject: WSCC Highway Comments - BE/121/2- - Revised Construction Management Plan for Saltbox

Hello Michael, with respects to the substitute Construction Management Plan, I've no particular concerns.

Access is now available from the additional arm off the Felpham Relief Road Roundabout rather than the existing field access to the north, so this has simplified highway matters. The only comment I'd have is in respects of the routing as shown on the Logistics and Traffic Management Plan in appendix 3. This plan shows all deliveries arriving and departing to the south. This isn't an issue in itself, but it is prescribing unnecessarily that all deliveries are required to arrive and depart to the south. There's no reason why traffic couldn't use the A29 to the north or the A259 to the east. I'd have no issue with this plan being amended so as to allow deliveries to arrive via any of the A roads in the vicinity of the site.

Kind regards

Ian Gledhill
