Hi David,

See link below.

If you follow the thread it shows that David Easton simply incorporated Laura's response into his own email, which then became a Q&A between Laura and our drainage consultant. The key phrase under point 1 (email of 4 October 2019 09:58) is where Laura added "Acknowledged that infiltration will not work due to works to raise site". Whilst this text is struck out, this is because the point had been addressed and we were moving on to other outstanding items:

We never saw Laura's direct email with this text, though this should be in David's inbox if it is still available.

Kind regards

Daniel

Daniel,

As discussed please send on that proof from the previous drainage officer Laura that infiltration is no longer required. I need to send the complete to my line manager by the end of the day or tomorrow at the latest
