Dear Mr Allsop,

I apologise for the delay in providing a response to this matter. I have today spoken with my team leader in relation to this matter who has provided confirmation that the proposed location of the totem will be acceptable. This document will now be uploaded onto the Council's EDRMS system and will form the approved position of the totem sign.

Yours Sincerely,
David Easton

The decision notice for the Kwik Fit planning application included a condition that the position of the totem sign had to be agreed before it was installed.

With regard to this please find attached a site layout drawing with the proposed totem location marked on it.

The intention is that it will be positioned 900mm inside the boundary fence adjacent to the main road.

If you can confirm this will be acceptable I will get it added to a scale drawing.

Let me know if you need any further information.

Bob Allsop
Project Manager
