Good Afternoon Nicola

The tree is approx 6m tall and we propose to reduce this by 2 - 2.5 meters in height. If we remove the branches that are on the leaning side this will reduce the width from approx 5m to approx 3.5m.

Kind regards

Paul & Susan Green

Good Afternoon

Further to your email below, please can you confirm in metres how much you propose to reduce the crown by.

Kind Regards

Nicky Moore

Good Afternoon

Thank you for your e-mail dated 6th December 2019, requesting further information regarding the above application.

The Yellow Bean Tree is approx 18 feet high and 15 feet at its maximum width. We would wish to reduce the canopy of the tree down by around 6-8 feet and remove the large heavy branches that are on the leaning side of the tree (2-3). The aim is to try to stabilise the tree to save it and offer less wind resistance when it is stormy.

We look forward to hearing from you further.

Kind regards

Paul & Susan Green
