Subject: FW: Salt Box proposal - BE/135/18/PL

Please upload onto Ocella the email below which is a late representation to BE/135/18/PL – Salt Box.

Thanks,

Michael

Subject: Salt Box proposal

Dear Mr Crowther

Just reading the update in the BOGOB on line this morning, where it appears that again local roads will be completely blocked.

You shouted down protesters who showed concern, saying this was discussed and approved in 2017.

You are aware that Shripney is denied a bypass and all the traffic on the realigned A29 will be coming through on the throughpass to Salt Box roundabout and beyond

This is a shameful decision, and will always be on your and ADC's record. Much like the A259 bypass, we now know why the land was not released, with the owner making more money from this development.

I and all other Shripney and Lydsey residents fully support the concerns of local councillors, who sadly will be shouted down again this week

Big business wins again and the little people have no voice

Thanks and regards
Cliff Brown
