

Please upload the revised Site Masterplan Block Plan (Rev. C) from the applicant onto Ocella for BE/135/18/PL.

Thanks,

Michael

---

Dear Michael

As discussed, I attach the amended masterplan which reflects the discussions on drainage requirements for the site. While the pond areas in the south are no longer required and therefore will not fill up, they are retained as ecological features. Please can you substitute this plan as necessary.

Many thanks

Arfon
