Dear simon.

We are a group of local business men  
Who Would like to preserve unit 3 bognor regis retail park. Currently "fitness first" as a health and fitness centre.

The knock on effect of closing the biggest health and fitness centre in west sussex..is not only losing people job's but also losing 2000+ members their health and fitness regime.Currently there is nowhere to accommodate this amount of people in the local area..

We would be interested in taking on the unit to continue the health and fitness centre under a new brand going forward.Saving jobs, creating jobs, supporting local businesses helping to reduce the strain on the NHS should these people be without somewhere to train.

This is a community not just a gym and would be injustice to destroy the only place that accomadates all aspects of health and fitness.

We hope you can help us with our ploy to save this important place

We have many reasons and believe it would be beneficial to meet and show you our ideas.

Many thanks

Mark haime, farheed khamlichi,Jordan Ayers,
