The agent's covering letter dated 7 December 2018 states that:

...this application is separate to the current application for a temporary logistics facility adjacent to Unit 1 (BE/18/91/L) and this application provides flexibility of implementation regarding providing additional storage on site.

Having reviewed in full the information provided with the application and noting that the application will not result in additional traffic or change the highway access to the site, the highway authority does not object to the application.
