Simon,

Thanks for coming back to me. Please find attached a copy of the Final Construction drawing for the SW drainage. The contractor (McLaren Group) have confirmed that this reflects the "as built" position of the surface water drainage.

We have also overlaid this drawing onto the layout plan (also attached) which demonstrates that there is no impact associated with the temporary structure. I trust that this confirmation is sufficient to enable a positive determination of the application. For the avoidance of doubt we have

We appreciate that there will be a need to agree a further extension and on the basis of this and your concerns set out below, R-RMC confirm their agreement to an extension to the 12th March. This notwithstanding, we would be grateful for as early a determination as possible given the schemes urgency.

I'd be grateful if you could confirm safe receipt.

Thanks and kind regards
Charlie

Dear Charlie,

I acknowledge your concerns about the timescales and I appreciate the urgency on your client's behalf. However, you will appreciate that every application on my list is urgent for the respective applicants. I see no point in agreeing an extension until the 26th at the current time as we have not yet had the as built survey and when we receive it, we will need to re-consult with our Drainage Engineer. However, when further comment from the engineer has been received, we can then look again to see whether there is any scope for the application to be prioritised or for a different officer to write the report.

Kind Regards

Simon,

Many thanks for your email. Very much appreciate the caseload pressures currently experienced. This application is urgent for Rolls-Royce Motor Cars and therefore any assistance you could provide in determining the application as soon as practicably possible would be most appreciated. With that in mind, we'd like to agree to an extension for a further two weeks (until 26th February)? I hope that you will be amenable to this.

We will respond on the drainage query raised shortly.

Thanks and kind regards
Charlie

Dear Charlie,

Thank you for your email. I am afraid that we will not be able to issue a decision by the 12th. There is a significant backlog in the determining of applications generally throughout the team. I personally have at least around 22

applications older than yours including large majors. I cannot start deciding newer applications before the older ones. I am unable to give a firm date for determination but would imagine that it would be sometime in March and I would be grateful if you agree an extension of time until 12th March.

Kind Regards

Simon,

Thanks for sharing and apologies for not having formally responded to this before. We have noted the response from your drainage officer, which we will respond to shortly. I note the determination deadline of the of Tuesday 12th, and we will respond to you in advance of then.

I understand that there are no other responses received, and that determination awaits just the response to drainage?

Grateful if you could confirm.

Thanks and kind regards
Charlie
