Samantha,

Drainage have been reconsulted following the submitted information

Please can you agree to an extension of time to the decision up until 14th June.

It is my last day with Arun Friday 31st May 2019 therefore this extension should give enough time for a next officer to assess and write up the recommendation.

Good morning Stuart,

I apologise for the delay, please find Drainage Strategy enclosed. Please note that due to the temporary nature of the structure, any intrusive works would be considered disproportionate to the scale and nature of the development. As the site is an ongoing business, it is therefore unsustainable to excavate concrete hardstanding and any intrusive works would cause major interruption to the business.

Please let me know if you are unable to download the document or have any further questions.

Thanks,
Sam
