Morning Richard,

Please find the drainage statement as mentioned in the conversations.

Thanks,
Sam

Good morning Stuart,

I apologise for the delay, please find Drainage Strategy enclosed. Please note that due to the temporary nature of the structure, any intrusive works would be considered disproportionate to the scale and nature of the development. As the site is an ongoing business, it is therefore unsustainable to excavate concrete hardstanding and any intrusive works would cause major interruption to the business.

Please let me know if you are unable to download the document or have any further questions.

Thanks,
Sam
