Afternoon Richard,

Please see below the response from JCC on your soldering question.

I will get back to you on Laura Gibbon's comments which have been forwarded to the surveyors. Have you heard anything more from her?

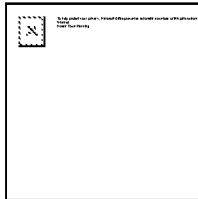

Kind regards,

Andrew.

Hi Andrew,

1: As I understand it the applicant will be soldering in the industrial building not welding. Please can you confirm. –  
Yes, we only solder in there, and to be honest it's very rare we even do that.

2: If soldering is to be carried out please can you confirm the number of soldering stations that there would be. –  
There is only 1 station for soldering, we only have 1 soldering gun. It's used probably 4-8 hours per week only.

Thanks

Jamie
