Subject: BE/139/18/PL - Innovation Centre Beeding Close

Dear Samantha,

Laura Gibbons (Drainage Engineer) has returned from leave. As such, I have chased to see if there are any outstanding issues and the following comments have been provided:

Just had a check through the correspondence on this. The surrounding levels are my outstanding requirement at this stage. If the levels demonstrate that water is being displaced off site then further information will be required.

To summarise, until the levels are supplied I cannot say definitively that I will not require further information.

I am , as I understand you are, keen to get these matters resolved as soon as possible. Should you wish to discuss the above matter please do not hesitate to get in contact.

Yours faithfully

Richard Castro-Parker
