

Application No: BE/148/20/OUT

I agree with the conclusions of the historic environment desk-based assessment of archaeological potential and significance for this site and its recommendation that the archaeological interest of any remains that are present could be secured by a staged programme of archaeological works. I also agree that this should be secured through the application of an appropriate condition, i.e. a version of ARC 1 as follows:

No development shall take place until the applicant has secured the implementation of a programme of archaeological work in accordance with a written scheme of investigation which has been submitted by the applicant and approved by the Planning Authority.
