TREE SURVEY

<u>Client Contact Details:</u> Lisa Jelley, Liseve Lodge, 84 North Bersted Street, Bersted, Bognor Regis, West Sussex. PO22 9AQ. [REDACTED]	Date: 6 th December 2020 Number: 696 Surveyor: Dr Gavin Walker & Mr Dave Hedley
--	--

Dangerous Sycamore Trees Safety Work Schedule:

T1 – T2 SYCAMORE TREES: (*Acer pseudoplatanus*)

TREE ADVICE:

These two trees on opposite sides of the garden both have significant cambium layer damage up to a height of approximately 2.5-3m. There is also evidence of rot within the basal trunks of both trees. Due to their location and size (c.9m tall - overhanging neighbouring properties to the East and public footpath to the West); it is recommended to reduce both these trees to ground level.

Tree surgery, hedge cutting, garden clearance, stump grinding & seasoned firewood
