Subject: FW: Planning Consultation on: BE/151/11/

In relation to the planning consultation BE/151/11, the comments made with regard to application BE/42/10 and BE/38/08 (repeated below) still remain current. I would remind the applicant that should planning permission be granted then an application to alter the existing Caravan Site Licence should be made.

"In relation to the application BE/42/10, I can confirm that comments made by Trevor Sennett, Caravan Site Licensing Officer with regard to the application BE/38/08 still remain current, and I have no additional comments to make."

"Response to planning on application BE/38/08. Comments: The extant holiday caravan park known as Shripney Gardens is run by the Applicant and is well managed and kept in good order. I have no adverse comment on the proposal to form an extension to this site by 12 additional holiday units. The access arrangements to the existing and extended site will need to be referred to the Fire & Rescue Service and it may be a requirement that either a turning head, turning circle and/or splayed access may be required to facilitate a fire appliance. I do not see this as being a fundamental problem."
