Hi Emma,

As discussed, and apologies again, some of the proposed hydraulic data was omitted from the Notes in error – BWB have issued an updated note with the '**Proposed Drainage Hydraulic Report**' section now containing the full results, so what was previously pages 14-28 is now pages 14- 43 (an additional 15 pages).

I can confirm that the results and commentary in the Notes do not change as it was simply a case of the calculations not being appended, rather than them not being considered in the original note.

I hope this is clear but as always if it would assist the Drainage Engineers and LLFA to get a Teams meeting to run through the drainage to hopefully resolve this to move toward committee, please let us know.

Many thanks,
Karen
