Hi Simon,

Further to your email below we would wish to seek a Libraries contribution here due to the significant and growing role that libraries play in supporting all communities, particularly residents in later life.

The Library Service offers outreach visits to care homes, delivers books and audio to care home residents and can also offer supported visits to a local library. They have a range of services, such as, free online newspapers and magazines, a reading group service, large print collections, speech and languages devices, access to past pictures and local history resources, remote digital support and much more that be of interest to West Sussex care home residents.

West Sussex Libraries also have a range of support for residents living with dementia including resources (books, reminiscence packs), activities (Melody for the Mind singing sessions) and information for relatives/carers and care home staff.

Finally, there are some examples in other authorities where libraries have been built co-located with sheltered housing and supported accommodation for later life. West Sussex Library Service are currently in the very early stages of exploring whether they might be able to work with Extra Care providers in this way.

Even in the case where the Care Home has their own library provision, we believe that the service has so much more to offer West Sussex residents than just books and that the range of services available would further add to any in-house offer.

I hope the above provides clarification on why we are seeking a Libraries contribution for this scheme but please do come back to me if you have any further questions.

Kind regards,

Naomi

****EXTERNAL****

Dear Naomi,

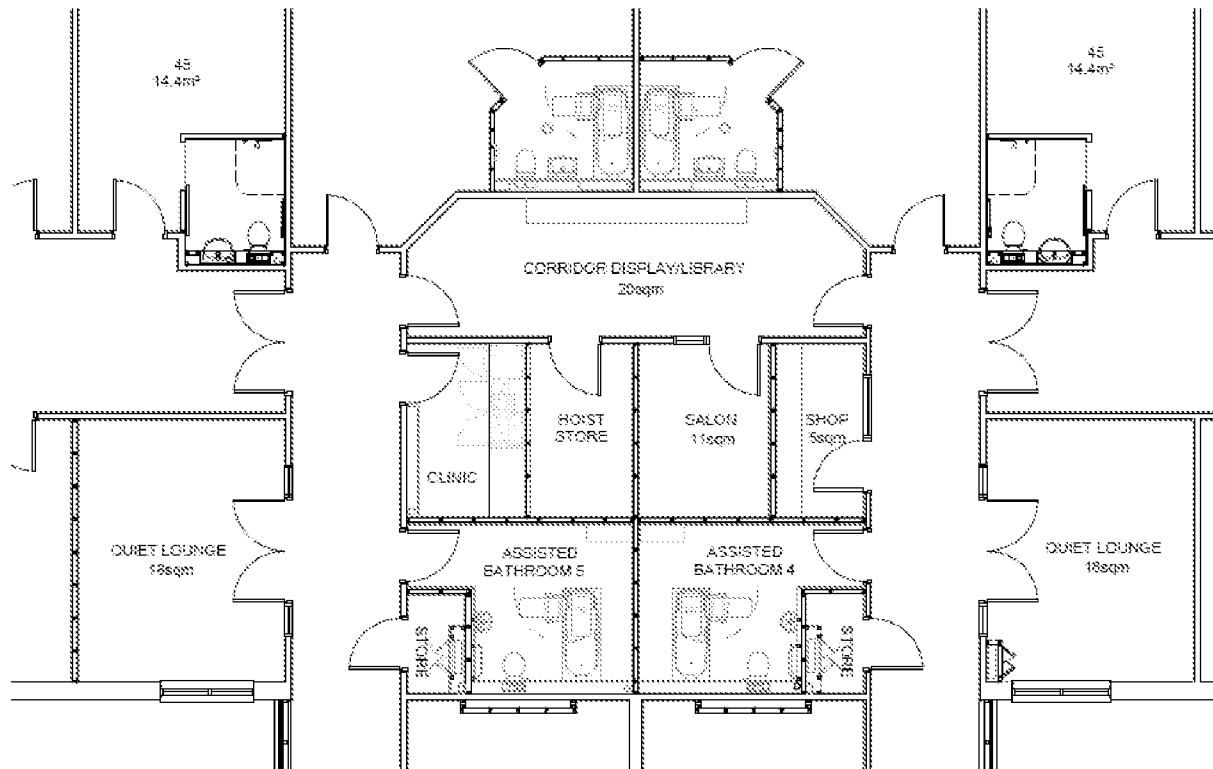

Further to your response, the applicant has just advised that:

Whereas we wholly agree with the Fire and Rescue Service and the Travel Plan Monitoring fees, I would like to question the formula for the libraries contribution, which is not something that we have had to previously contribute towards.

As a care home provider, we would not expect our residents to regularly use public libraries and as such we have our own library in the care homes for residents to enjoy. which is frequently updated for them by us. The proposed care home would, therefore, have no impact on local library services.

Is this sufficient justification to waive the libraries justification or would you insist on this? Please let me know your thoughts.

Their floorplans do show a library:

Simon.
