

Blackberry House, Berry Lane Bognor Regis, West Sussex, PO22 9FG

The trees in question are a total of eight Hawthorns that are in good health, The work that we are looking to apply for is very sympathetic maintenance to tidy up the trees to provide a better visual immunity. the proposed works would be a height reduction of 1 metre and a lateral canopy reduction of 1 metres this would not have any detrimental effect to the trees health and would be pruned in accordance of British standards.
