

38 Compton Drive

Dear Sirs

Re: Planning Application No BE/17/18/PL

Mr R Clarke 37 Norbren Avenue, Bognor Regis, West Sussex

I wish to register my objection to the above planning application on the following basis:-

1. This end of Norbren Avenue is very congested with numerous cars always parked outside no.37 and as a frequent weekly visitor to relatives nearby in Norbren Avenue I find it can be dangerous turning into it from Greecourt Drive since cars are often parked opposite the junction and on the corner.
2. As most homes usually have 2 vehicles there will be added congestion with this proposed development and an accident waiting to happen with a car pulling out of the proposed new property driveway into Norbren Avenue on that corner.
3. Norbren Avenue and Greencourt Drive are always busy with vehicles on the school run and again this poses a possible danger to travelling school children.
4. There is no way the proposed chalet bungalow is in keeping with the surrounding area. They are all 1930s houses in the surrounding roads. In addition, from the plan it shows the bungalow totally out of the building line with the other houses.

Please consider the above comments and examine the impact on the immediate area and people and refuse this application.

Yours faithfully

Mr. M Powell
