Are you seeking consent for works to tree(s) subject to a Tree Preservation Order? ☐ Yes ☐ No

Are you wishing to carry out works to tree(s) in a conservation area? ☐ Yes ☐ No

Documents and plans (for any tree)

A sketch plan clearly showing the position of trees listed in the question 'Identification of Tree(s) and Description of Works' MUST be provided when applying for works to trees covered by a Tree Preservation Order. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes).

It would also be helpful if you provided details of any advice given on site by an LPA officer.

Are you providing additional information in support of your application (e.g. an additional schedule of work for question 'Identification of Tree(s) and Description of Works')? ☐ Yes ☐ No

5. Identification of Tree(s) and Description of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out.

You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work.

Where trees are protected by a Tree Preservation Order, please number them as shown in the First Schedule to the Tree Preservation Order where this is available. You should use the same numbering on your sketch plan (see help for sketch plan requirements).

Please provide the following information:

- Tree species
- The number used on the sketch plan); and
- A description of the proposed works.

Where trees are protected by a Tree Preservation Order you must also provide:

- Reasons for the work; and where trees are being felled
- Proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

e.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with one standard ash in same position.

T1 & T2. CRAB APPLE (Prunus): Reduce the new growth on the two Crab Apple trees on the front boundary. Reduce from a height of 6m down to 4.5m & span reduction from 4m to 3m.

T3. DARK GREEN ORNAMENTAL FIR: Reduce to ground level to enable more light and space for the trees either side including the Camellia in front.

T4. YELLOW ORNAMENTAL FIR: Reduce height by approximately 1.5m down to height of dark green ornamental Fir that is to be removed. Height reduced from 6m down to 4.5m. Span remains the same.

T5. PITTOSPORUM: Reduce height by 2m from 7m down to 5m.

T6. UNKNOWN TREE NEXT TO PITTOSPORUM: Complete a crown reduction with height reduced from 6m down to 5m and width/span reduced from 5m down to 4m.

T7. LEYLANDII HEDGE CUTTING NEXT TO HOUSE: Use hedge trimmer to trim the sides and front edge. Use chainsaw to reduce the height by 60cm. Reduce height from 3m down to 2.4m.

6. Tree Ownership

Is the applicant the owner of the tree(s)?

☒ Yes ☐ No

7. Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

☒ Yes ☐ No

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

8. Trees - Declaration

I/we hereby apply for planning permission/consent as described in this form and the accompanying plans/drawings and additional information. I/we confirm that, to the best of my/our knowledge, any facts stated are true and accurate and any opinions given are the genuine opinions of the person(s) giving them. ☒
