Dear Katherine,

Apologies for the delay in coming back to you.

Following our discussion last week, we have been liaising with our Client who has now commissioned an Acoustic Survey for the site. This will hopefully address and overcome the issues raised by Environmental Health Officers and will be completed in the next week or so.

Prior to taking a decision on whether to withdraw the current application, our Client is keen to understand whether our submission has raised any additional concerns from neighbours and statutory consultees. As you will hopefully appreciate, this will enable us to assess whether there are any further potential issues arising from the scheme which may need to be addressed as part of a re-submission.

I have checked the Council's online system but can only see responses from highways and environmental health at this stage. Are you able to advise if any further responses have been received?

We understand that the application cannot be determined until the end of the statutory publicity and consultation period which is the 14th February 2013, and our Clients have requested whether it would be possible to hold off making a decision on the future of the application until this date.

I would be grateful if could consider this request and come back to me to confirm.

Many thanks,
Charlotte
