

12/12/2018

Dear Louis Bassindale,

NSI Reference: **BJS/285, Saltbox Shripney Rd, Bognor Regis, PO22 9RP**

Thank you for registering your commercial development with Openreach. We are delighted to inform you that your development will **receive our Fibre to the Premise (FTTP) product** free of charge.

This will provide ultrafast broadband speeds to each plot and will deliver a level of broadband future proofing as the demand for speed increases.

Your customers could, depending on their choice of communications provider, benefit from ultrafast speeds of up to 1Gbps so everyone in the customer's business could use high speed broadband, all at the same time. Faster upload and download speeds means a quicker experience for everyone working the new building.

What you need you to do now

In order to provide ultrafast broadband infrastructure to your customers and to ensure that we get the design right first time, we need you to:

- Confirm that the details you provided at the Registration stage are correct. If not, please contact us immediately so that we can make any necessary changes.
- Sign the signature page of the agreement (attached) and return to us.

NOTE: Proposals for your site will not be progressed until we receive the signed documentation.

Please send the above by email to us at nsrecep@openreach.co.uk

We look forward to hearing from you soon to enable us to start the on-site proposal for your development as quickly as possible

Yours faithfully,

Infrastructure solutions customer service team
