Nia,

I am awaiting your revised Construction Management Plan for BE/3/19/DOC and I am chasing up Environmental Health's response on the acoustic barriers and lighting in BE/1/19/DOC. Once I have received all of the requisite information I can discharge the two DOCs.

Regards,

Michael

Michael,

Can you re-confirm what is outstanding in relation to these two DOC applications?

My understanding is that the location and specification of the acoustic fencing and the external lighting scheme remain outstanding on BE/1/19 (and are with your EHO for approval) and the Construction Management Plan for BE/3/19 - both of which just relate to the conditions on the **full** elements of the extant permission, and therefore be determined independently as the other conditions have?

Can you let me know if there are other aspects which need addressing?

Regards

Nia

Hi Nia

Please could I have an extension of time (EoT) to determine BE/1/19/DOC and BE/3/19/DOC - Salt Box to **Friday 7th June 2019**, i.e. 2 days after the Development Control Committee meeting?

Kind regards,

Michael
