Hi Fiona,

Are you satisfied with the updated lighting report (attached) for **BE/20/22/DOC**?

I look forward to receiving your consultation response.

Kind regards,

Michael

Hi Michael & Fiona

Thank you for your email; we have updated the report (attached) to incorporate the comments and can confirm the following:

- The external lighting has been designed to ensure the reduction of obtrusive light is maintained across the site. This has now been added to the Relevant Standards and Guidance section.
- We can confirm that the external lighting has been designed to comply with Zone E2.

I trust this is all satisfactory and Condition 4 can be discharged?

Regards

Steven

Subject: BE/20/22/DOC

Dear Planning,

Condition 4 – Lighting

1. Please could the applicant confirm whether or not they have referred to (ILE) Guidance Note 1 for the reduction of obtrusive light 2021 as this does not appear to be stated in the Relevant Standards and Guidance section?
2. The document alludes to the fact that the scheme is consistent with Zone E2 but does not directly state it (last 2 paragraphs on page 5). Please could the applicant confirm whether or not the scheme complies with Zone E2 or not?

Condition 28 – Acoustic Fencing

Environmental Health has no further comments and is satisfied that Condition 28 can be discharged.

Regards
