Condition No. 12 (full permission) regarding surface water drainage at the Salt Box site.

Land at Salt Box, West of Shripney Road, Bognor Regis

Notification regarding the above application:

Condition 12 (full planning permission)

Development shall not commence, other than works of site survey and investigation, until full details of the proposed surface water drainage scheme substantially in accordance with "Salt Box, Bognor Regis: Foul & Surface Water Drainage Strategy (for Landlink Estates), 17th October 2019, prepared by Hydrock, (Doc. Ref: SAL-HYD-XX-ZZ-RP-C-0001)" and Drawing No. "SAL-HYD-00-ZZ-DR-C-7000 Rev. P03 – Site Drainage Strategy" have been submitted to and approved in writing by the Local Planning Authority. The design should follow the hierarchy of preference for different types of surface water drainage disposal systems as set out in Approved Document H of the Building Regulations, and the recommendations of the SuDS Manual produced by CIRIA. Winter groundwater monitoring to establish highest annual ground water levels and winter Percolation testing to BRE 365, or similar approved, will be required to support the design of any Infiltration drainage. No unit shall be occupied until the complete surface water drainage system serving the unit has been implemented in accordance with the agreed details and the details so agreed shall be maintained in good working order in perpetuity.

Reason: To ensure that the proposed development is satisfactorily drained in accordance with policies W SP1, W DM1, W DM2 and W DM3 of the Arun Local Plan.
