Subject: RE: Planning Consultation on BE/21/20/DOC

Good afternoon,

Thank you for consulting us.

Please could you confirm which conditions you would like discharging?

As the conditions listed below don't seem to correlate with the ones on the decision notice for BE/135/18/PL.

Eg. Condition 14 listed below *maintenance and management of surface water drainage* is

14. Construction methods that include piling / investigation boreholes / tunnel shafts/ ground source heat pump systems using penetrative methods shall not be permitted other than with the express written consent of the Local Planning Authority, which may be given for those parts of the site where it has been demonstrated that there is no resultant unacceptable risk to groundwater. The development shall be carried out in accordance with the approved details. – on the decision notice

And below Condition 16 is foul drainage yet on the BE/135/18/PL decision notice it is 'No ground clearance or vegetation clearance works shall take place within the bird nesting season (between 1 March and 31 August) inclusive in any year unless a nesting bird check is carried out. This shall, be undertaken by a suitably qualified ecologist immediately prior to the works taking place. If any active nest sites are identified, these nests shall remain undisturbed until all the young have fledged naturally.

Kind regards,

Phoebe Nelson
