Subject: RE: IMA-14-015 Unit 1 Oldlands Way, Bognor Regis (BE/23/14/PL)

Many thanks Dominic, that's extremely helpful.

I attach a revised Travel Plan to cover Action (2), the changes are to the second bullet point under 6.5.2 and in the Action Plan at the end, in both cases I've added a commitment to monitor cycle parking use and increase it if capacity is reached regularly.

The ability to provide a Safety Audit will in part depend on when the planning application is to be determined. It is likely to take 2-3 weeks to have the Stage 1 Safety Audit completed and to provide a Designer's Response. If the planning application is to be determined before that, then it would be very helpful if you could agree with Simon Davis that it could be dealt with by condition, so your objection could be lifted formally.
