BE/88/18/DOC

Dear Mr Davis

I will be dropping off the slate sample and three different choices of ridge to be used on the roof also a sample of oak board for the cladding on the whole bungalow.

Please note the actual oak board will be in the style of a plank to help stop the wood from deforming over time, but the size will remain the same rather than feather edge.

If we are trying to make the building look like an old barn style then a red ridge would blend better with an aged appearance.

One sample is grey Marley segmental one a Redland and one a Heather.

Slate sample is a standard Spanish slate.

You already have the brick sample with the cottage mix to use up to damp.

I have also included the paperwork for the application and cheque for the fee of [REDACTED] for items needed for condition 7.

If there are any problems please contact me and I will endeavour to get them sorted as soon as possible.

Many thanks

Martin Stock
