Michael

Thank you for your email. I can confirm that as per the previous application, there will not be any covering of the stockpile and therefore no need for drainage measures.

I have reviewed the landscape and ecology notes done previously and neither are particularly relevant to this proposal so have asked Aspect to update them. I will send them on as soon as I can.

Kind regards

Arfon

Arfon,

Please could you confirm whether or not the stock pile is to be covered with an impermeable membrane in order to prevent erosion/weed growth or consists of material less permeable than topsoil.

If the stock pile is to be covered then drainage measures would be required to ensure that the surface water run-off does not increase flood risk elsewhere.

I look forward to receiving your response.

Kind regards,

Michael
