Subject: Land at Manor Farm- Section 37 Notification- Clancy on behalf of SEPD

CAUTION: This email originated from outside of the organisation. You should take extra care when clicking links or opening attachments - if you are unsure the content is safe contact the IT Helpdesk before clicking or opening.

Good afternoon,

I hope this email finds you well.

Our client Clancy Docwra Ltd (Clancy), on behalf of Southern Electric Power Distribution (SEPD), proposes to replace and relocate existing poles and install two new poles on an existing overhead line (OHL) located on land to the west of Shripney Lane, Bersted, West Sussex (PO22 9NU), centred around National Grid Reference SU 92658 01968.

The works are considered exempt under regulation 3(1)(f) of the Overhead Lines (Exemption) (England and Wales) Regulations 2009 need to meet the restrictions given in Regulation 4 and further limitations of Regulation 5. Subject to the Arun District Councils agreement, the proposed works to replace and relocate existing poles and install two new poles, are considered exempt from requiring Section 37 Consent by virtue of satisfying the limitation and restrictions on the exemptions contained in Regulation 4.

As per the relevant guidance, the local planning authority should screen notifications and provide a response with 6 weeks advising if they have any objections and wish to invoke the full section 37 consent process for the proposal. If no response is received in 6 weeks, it will be assumed that you do not wish to comment/have no objections to the proposed development.

Please find attached our Section 37 notification letter and enclosed plan. Please complete the form within the letter and return at your earliest convenience within the 6 week period.

If you have any comments or queries on the proposal, please do not hesitate to get in touch.

Kind regards,
Elsa
