Subject: The Base

Re: The Base

Dear Simon,

Myself and my family support this project along with many other people.

Bognor desperately needs more indoor attractions for children. At least someone is bothering to do something positive for the town and the kids. This will also attract skateboard/scooter enthusiasts from other areas as they love to try new skate parks.

Why wouldn't this go ahead? The road isn't an issue as most people would drive as would I, although we love quite close it's just more convenient and there's lots of free parking so no issue there.

In fact being out of town is better so as not to build up traffic in town.

I expect it's location is perfect for residents of Shripney, Westergate, Eastergate & Barnham also.

I now frequently visit Sainsburys since it's been opened and will do the same with this new venue having two children aged 5 & 8. The area is popular because of what is already there.

Support this all the way. It will be a disgrace not to have support from the council for such a great project. This is an active programme for children and I encourage healthy lifestyles all the way as a Zumba Instructor. I would rather my children have somewhere to go as they grow up that stimulates them than hanging around on the streets like a lot of Bognor kids, as they have no where else to go!

Not one person I know doesn't want this to proceed. Fact!

This should be taken seriously, lots of people are backing this to go ahead.

Thank you for your time

Regards

Louise Simons
