RF/19:0119/5529

To whom it may concern,

PLANNING APPLICATION BE/117/18/DOC - CONDITION 5
DEVELOPMENT: NEW BARN LANE, NORTH BERSTED
DEVELOPER: LINDEN HOMES SOUTHERN

I can confirm that I have had no involvement in the design, preparations of calculations or detailing of the attenuation basin at the above. I have been requested to undertake an independent review of the aforementioned items and can confirm the following:

The calculations for the uplift on the swale as a result of the groundwater have been prepared and checked to ensure that they comply with best practice design guidelines and the principals of BS EN 1997-1:2004+A1:2013.

I trust you will find the above acceptable but should you have any queries please do not hesitate to contact me.

Yours sincerely

Robert Flanagan
