Subject: Section 74B request - New Barn Lane - additional information required

Dear Laura,

Thank you for your request to amend condition 6 under S74B of the Town and Country Planning Act 1990. I am writing to request additional information to help us determine your request. Please could you provide the following in support of your request:

- a list of the primary construction activities, expected to take place during the extended working hours, including plant and equipment to be used and confirmation of the number of vehicle movements in any hour.
- a proportionate assessment of the likely impact of noise upon sensitive uses near to the site (e.g. dwellings – new residents within the site and existing residents)
- details of your mitigation plan as set out in section 5 of the Guidance to ensure that mitigation will be in place to satisfy us that there will not be a significant impact on residents.
- the working hours are also set out in the approved Construction Management Plan, your application needs to include an amendment to this document as well.

Please provide this information as soon as possible and no later than 6th August. Please can you copy Michael Eastham and Daniel Vick into your response as I will be on leave from tomorrow.

Kind regards

Claire
