Dear Sir/Madam,

I am writing concerning Application BE/37/21/HH for extension of house number 19 South Way N. Bersted.

Having experience of multiple occupation houses in Greencourt Drive, I strongly object to this planning application.

- ① The parking of cars will increase on an already busy road where houses only have one parking space. Already there are vehicles permanently parked on the pavements making it difficult for pedestrians. At 9am & 3pm school cars completely block South Way, Northren Avenue & Greencourt Drive, with pedestrians spilling into the road, and making it difficult for emergency vehicles to attend.
- ② With such a large extension there will be a loss of privacy for neighbouring properties. More people having parties in the garden will cause additional noise and litter, as it does in Greencourt Drive.
- ③ These houses were built as family homes, with elderly drainage systems, and a change of use is detrimental to the environment. In multiple occupation these residents make no attempt to integrate with their neighbours who are a very friendly community.

I hope you will consider these facts when looking at this application.

Yours sincerely,

Mary E Gostling (MRS)
