Dear Katie

**On behalf of Kier PGIM Logistics Propco 1 Limited, Saltbox, Bognor Regis:
Discharge of planning condition 3 attached to Reserved Matters Consent BE/121/21/RES**

Please find enclosed an application to discharge the above condition.

Condition 3 of the Consent states:

“No development shall take place until details of the Electric Vehicle (EV) Charging Points have been submitted for approval in writing by the Local Planning Authority. The approved EV charging points shall be installed prior to the first use of Unit 3 and thereafter will be permanently retained and maintained in good working condition.”

The number, location and configuration of EV charging points is already approved by the Reserved Matters consent and is as shown on approved drawing 1744-U03-P02-E.

We enclose in discharge of this condition the technical specifications of the proposed PV charging points themselves. As the enclosed technical note from CHBS details, electricity supplies shall be extended from the unit to column mounted electrical vehicle charging points providing a twin outlet with a combined charge of up to 7.2kW.

We trust this detail is acceptable and will allow the timely discharge of this condition. Should you require anything further, however, then please do not hesitate to contact me.

Kind regards
