Hi,

Please can this plan be uploaded to BE/44/25/PL – it will supersede the proposed plans and elevations document. No need to re-advertise or re-consult.

Many thanks

Hello Hannah

No problem, please find attached the revised drawing now showing the porch roofs on both roof plans.

Kind regards

Dear Nick,

I hope you are well.

I've just been reviewing the application whilst preparing the report for BE/44/25/PL – however, I note there's a minor discrepancy between the proposed elevations and roof plans. On the elevations each plot is shown to have a canopy style porch, however this is not shown on the roof plans. Would it be possible to have the porch roofs also shown on the roof plans?

Many thanks in advance.

Kind regards

Dear Nick,

I can confirm we will be able to offer additional time for you to respond to any queries; I must however advise that the level of response accepted will depend on the Engineers feedback, and how fundamental the nature of the queries are. For example, if we are just missing a minor piece of information which can be very quickly resolved, we can accept this. However, should it be identified that something major is missing, we will invite comments, but cannot accept any further technical information which would need a reconsultation with the engineers.

I hope this is of clarity.

Kind regards

Hello Hannah

Thanks for your prompt reply.

As the delay with the consultation is down to the Council, I take it that we will be given sufficient time to respond to any queries that the drainage engineer might have?

Kind regards

Hi Nick,

Thank you for your email.

I do not believe we will be in a position to determine the application until the Drainage Engineers have responded as drainage is a fundamental consideration of the permission, and therefore we will not make a decision until we have heard back.

Kind regards

Hannah

Hello Hannah

I'm just checking that the date to receive comments has been extended to allow more time for your drainage engineer?

Kind regards
