Hello Harry

Thanks for your email.

I've attached a pdf copy of the FEH point descriptors from our drainage consultant as requested.

He did also say in his email which hopefully helps.....

*Good Afternoon Nick,*

*I've PDF'd and attached the file for the planning officer, it will make more sense to them when it gets through to their drainage team.*

*This is the extract from their comments, in case it gets queried again why we have included it:*

5. The hydraulic calculations have not been checked as a result of item 1. However, they will need to be altered to reflect the revised scheme that is now required. Urban creep at 10% must be included, irrespective of the sites perceived constraints. A surcharged outfall must also be modelled. Ensure that the calculations reflect the invert level of the proposed flow control devices. Provide a copy of the **FEH** point descriptors file, so they parameters can be checked.

Kind regards

Nick Jenkins      RIBA

Hi Nick,

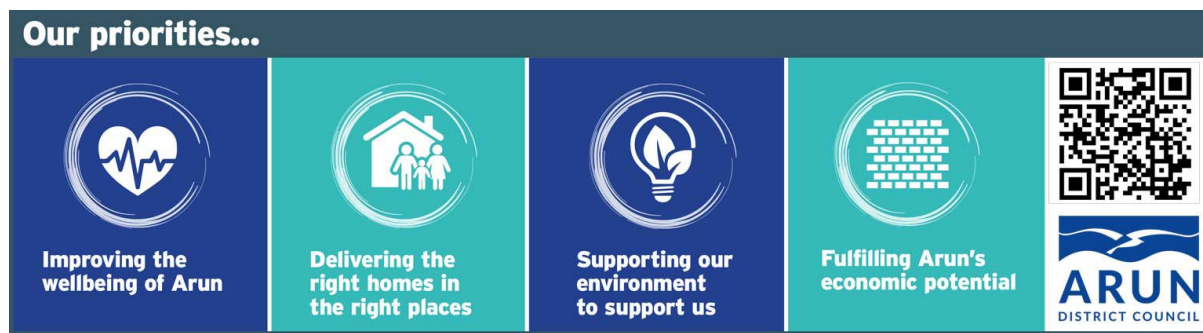

I note that your email came with three attachments. One named FEH point descriptors. The file format appears to be xml and I am unable to open and view its contents. Could you provide it in a PDF or alternative format?

Thank you,

**Harry Chalk, MSc**

Harry,

Can you process the amended information for Hannah? I will discuss the timing of a response with engineers.

Hello Daniel

Please find attached the information from our drainage consultant to forward on to your drainage engineer for approval in relation to the above application.

Can you please confirm receipt of this email and also whether we will be going to the back of the queue or if your engineer will be able to assess the information asap?

Thank you for your assistance.

Kind regards

Nick Jenkins      RIBA
