Dear Michael/Claire

Having reviewed the Salt Box decision notice I have noticed that there are some major and fundamental differences between the conditions within the committee report (page 147-158) and the final permission issued on 22 December.

Claire and I did correspond on the draft conditions when they were published before formal publication of the report (correspondence attached) but there seem to be many conditions that are now absent from the consent as issued and the drawing references for the 'full' element of the hybrid proposal are not referenced.

Please could you give me a call to discuss how this can be rectified once you have had an opportunity to look at the permission and cross reference against the conditions in the report?

Many thanks

Nia
