Notification regarding the above application:

Condition Number 35

Prior to the occupation of any part of the development, a strategy for the provision of the highest available headline speed of broadband provision to future occupants of the site shall be submitted to and approved in writing by the Local Planning Authority. The strategy shall take into account the timetable for the delivery of 'superfast broadband' (defined as having a headline access speed of 24Mb or more) in the vicinity of the site (to the extent that such information is available). The strategy shall seek to ensure that upon occupation of a dwelling or commercial premises, the provision of the highest available headline speed of broadband service to that dwelling or commercial premises from a site-wide network is in place and provided as part of the initial highway works and in the construction of frontage thresholds to dwellings and commercial premises that abut the highway. Unless evidence is put forward and agreed in writing by the Local Planning Authority that technological advances for the provision of a broadband service for the majority of potential customers will no longer necessitate below ground infrastructure, the development of the site will continue in accordance with the approved strategy.

Reason: To safeguard the amenities of future residents in accordance with Arun Local Plan policy TEL SP1.

Decision:

Arun District Council have decided to **APPROVE IN PART** details reserved by condition
