Subject: BE/4/14 - Loft conversion with front and rear dormer at 40 Norbren Avenue, Bersted

Dear Mr Aarabi,

I have visited the site in relation to the above loft conversion. Whilst I have no objection in principle to the loft conversion with alteration to the roof the front dormer is not considered acceptable. There is the absence of front dormers in the surrounding street which are characterised by properties of similar style and design.

Would it be possible for the front dormer to be removed from the application.

Regards
