Hi Victoria

Thanks very much for sending the very informative pack. By the way, do feel free to call me Gill, as I like to work fairly informally.

Will you be doing any form of public consultation in the local area prior to putting in a planning application? I know it is difficult in these trying times but an outdoor gazebo with some boards could work. Otherwise, there are some venues nearby where an internal event could be held but it would require some control on throughput of people.

I have seen some very good articles regarding the safety of 5G on various news programmes but it is a very emotive subject and this antenna is proposed for a residential area. Giving people the opportunity to hear the science and ask questions could be very important.

Also, is 20m the standard height for an antenna? Seems rather high to me. I only mention this because of the glider club operating nearby and I wonder if this might have an impact on them.

I have copied my 2 Bersted colleagues in on my reply as you have probably contacted them separately. Have you been in touch with Bersted Parish Council also? Both Martin Lury and I sit on that council also.

Best wishes

GILL
