CAUTION: This email originated from outside of the organisation. You should take extra care when clicking links or opening attachments - if you are unsure the content is safe contact the IT Helpdesk before clicking or opening.

I attach 3 files to clarify the application for work on the sycamore tree in our garden.
Plan rookery shows with a blob the location of the tree in the north east corner of the garden.
Map Rookery shows the house location with street names.
20220604 picture is of the tree. Just apparent under the tree is our summer house which is 2.2 metres high at the peak. Using this as a reference means the tree is 15.4 metres at the top. A 4 metre reduction in height back to the original cuts is requested. With the circumference being reduced by 3 metres.
I hope this answers your questions.
John Freeman.

P.S. I have had to send this e-mail via
