Comments relating to Condition 5- Surface water drainage

I recommend that the condition is now discharged following the supply of clarifying information (see below).

Bob,

As the surcharging is small, and as you say the 100mm granular surround should take this, I will accept the surcharging in this case.

Kind Regards,

Laura Gibbons, MEng, GMICE

Subject: Greencourt Drive

Hi Laura

Further to your response attached, could you reconsider, as the 21mm of surcharge can easily be contained within the 100mm of granular surround to the crates and within upstream pipework/ manholes etc. We are showing no flooding on a 1 in 100 year event + 40% cc and I would request that a little surcharging is acceptable.

Many thanks
Bob
