With reference to the planning application for property 339 Chichester Road, Mr Delaney.

I strongly object to what he is proposing.

I have lived in Bedford Avenue most of my life and in recent years our road has become one big car park.

The road is residential, and therefore should be kept so.

But what has got to me is the way the vehicles on the bend where Mr Delaney owns, take up most of the road. Are parked is such a way a wheelchair or pram user have to actually go into the road to avoid as there's no room on the path. How an emergency vehicle could ever come the road, it would be a miracle.

Coming into the road from Chichester Road end is at most times like putting your life at risk. The cars are so tightly parked, and on the bend, it's an accident waiting to happen. Coming out from the drop kerb and into the road could cause an accident as you can't see either side of the road.

Just recently our road has been used as a short cut, and the speed that they travel down it is sickening. All you wait for is the thud of metal.

Please don't allow the planning permission to go ahead,it will spoil what is a very nice road,and you could actually be saving somebodys life.

Can you record this as a Public objection Please.

With many thanks
Mfaithful
