Subject: 4 Homing Gardens

Good afternoon Janice

I have amended the Proposed Elevations to show the roof windows not to protrude past existing roof line. The existing tiles are to be reused on the most visible areas of the dormer and matching tiles will be used for the remaining areas. An existing tile and an example of a matching tile will be brought into you next week by the applicant. Alana Payne, her number is [REDACTED] I would be grateful if you could inform her of your approval of the tile by phone or email which is cc to this email.

I am very grateful for all your hard work and speed with this application.

Many thanks
